

# PLA Ice Cream Bowls

Introducing new Detpak PLA Ice Cream Bowls. Perfect for cold treats, these bowls are certified commercially compostable to AS 4736 (ABAP 10446). They come in 4 convenient sizes and feature a PLA (polylactic acid) lining on inside and out, making them suitable for very cold foods, like ice cream.

**Detpak**

# PLA Ice Cream Bowls & Lids

## Features & Benefits:

- Our PLA Lined Ice cream bowls are double side coated with PLA (polylactic acid). This enables them to be used in cold environments or with very cold foods, such as ice cream, without going soggy. The double lining also makes them suitable for hot foods\* such as pasta and fried foods.

\*Not recommended for use with soupy foods above 85°C. Test in your own environment if using with very hot soupy foods.

- Certified compostable to AS 4736 (ABAP 10446)
- Each bowl features the Seedling certification for nationwide (Australia) Single Use Problematic Plastics (SUPPs) legislation compliance.
- Pair with Detpak PET Dome Lids for a complete solution

**Commercially Compostable**  
AS 4736 (ABAP 10446)  
**PLA BOWLS ONLY**

**Recyclable**  
**PET LIDS ONLY**

Please note that the PET Lid range is not accepted in WA & SA unless pre-packed.
